INTRAY Shuttle Conveyor

FOR MULTIPLE PRODUCT LOADING INTO TRAYS OR ONTO CONVEYOR BELTS

Specifications

Capacity	Up to 240 pieces/min (depending on product and loading pattern)
----------	---

About the product

INTRAY Shuttle Conveyor is used for multiple load of products. It has a retraction belt to load products directly into trays or onto moving conveyors below. It is highly usable in combination with:

- INTRAY Step Conveyor
- Any kind of moving conveyors
- Freezing systems
- Packaging machines

The Shuttle Conveyor can be adapted to most common filling lines. It has a hygienic design, and the removable conveyor band ensures easy cleaning.

It comes with casters as a movable version or as fixed positioning.

The machine can be manufactured in different lengths and widths according to individual needs.
