Fish Bin

FOR EASY STORING OF SORTED FRESH FISH AND SHRIMPS

About the product

The fish bin from Intech is perfect for storing sorted fresh fish and shrimps before weighing and packing. The fish bin comes in many different sizes according to individual needs.

The equipment is highly suitable for smaller to medium-sized trawlers with few crew members, as it provides the crew with the opportunity to finish the sorting process before starting the weighing and packing. To access the fish, simply open the hatches at the fish bin.

The fish bin is easy to operate and can be thoroughly cleaned due to its hygienic design.
